

Knots, Weights and Tuning the Rapala Lure

Rapala Knot

- The Rapala Knot allows the lure to swim the way it was designed to
- It suits perfectly well both [nylon](#) and [braided](#) lines
- The Rapala Knot is perfect when fishing with Original, Countdown, Jointed, Shad Rap, Shallow Runner, Team Esko, Mini Fat Rap and Magnum Floating [\[See all Rapala Lures\]](#)

1. Tie an overhand knot. Leave 15 cm free end.
2. Run free end through the eyelet and back through the overhand knot, leaving it 1-2 cm away from the eyelet - do not draw too tight yet!
3. Wrap free end around standing part of line 3 times.
4. Run free end back through overhand knot.
5. Pass free end through loop that is formed.
6. Moisten line and draw up tight. Trim excess.

The Improved Clinch knot

- This Knot is perfect when fishing with Husky, Husky Jerk, Deep Running Shad Rap, Fat Rap, Rattlin' Rapala, Countdown Magnum, Sliver and Blue Fox lures [\[See all Rapala Lures\]](#)

1. Run line through eyelet (when using braided lines, run free end TWICE through). Leave 15 cm free end. Wrap free end around standing part of line 4-6 times. Pass free end through the loop attaching to the split ring and through the loop that is formed.
2. Moisten line and draw up tight. Trim excess.
